Mr. Ron B. Schiller
Box 456
Monmouth Beach, New Jersey

Dear Ron:

Thank you for your letter of August 7 reporting reception of PJB, Trans World Radio Bonaire, Netherlands Antilles, on August 5.

I know that you'll be happy to know that your letter was one of the first five received here in Chatham with correct reports.

We are now fully operational on the medium wave band in Bonaire. We are carrying relay programs from Radio Nederland in the early evening, and our own programs from 22:00 to 23:00 EDST. Additional programming will be done in the evening in the future.

We are now testing our 50 kw short wave transmitter and waiting patiently for the arrival of the 250 kw short wave xmtr in September.

Since you sent a duplicate report to Bonaire, I'm sure you will receive a QSL directly from the station in the near future. They have been snowed under with mail, so it may be a few weeks before you get a card.

Cordially yours,

Richard Kollmar
K2GPW
